

FNKR Founder and Director: Kim Seong Min (above) and Choi Jeong Hun (below)

Partner with us to share news with the people of North Korea

The Defense Forum Foundation is seeking support from organizations and individuals to sponsor the broadcast of Free North Korea Radio, an award-winning Seoul-based radio station broadcasting news and information into North Korea. Free North Korea Radio (FNKR) is the most popular radio program broadcasting into North Korea. Its program is also the most targeted for jamming by the DPRK regime. Sponsorship ensures that every day through the FNKR broadcast, North Koreans have access to vital information and news. Sponsors are recognized for their sponsorship and all donations are tax-deductible. To sponsor a full hour of programming costs just \$250 per hour!

Established by North Korean defector Kim Seong Min, FNKR began a one hour shortwave broadcast in 2006. Since then, FNKR has become the most popular single program among North Koreans confirming that there is nothing more powerful than North Koreans living in freedom in South Korea reaching out to North Koreans living in enslavement.
